

Professionally approved products. Datasheet

Fast Acting Fuse

RS Stock number 764-9413

Recommended Land Pattern

Reflow Solder

Features

- Chip Fuse structure design with PCB body and copper & tin alloy element
- Use optical lithography & etching skill to make refinement element
- Complete on element with the terminal electrode plating tin material to prevent element oxidation.
- Product meet 100% ROHS, lead free, HF & REACH requirement.
- Offer range of current ratings from 0.5A-5A & voltage up to 63VDC and 63VAC.

Material

Construction Body Material: FR4 Board

Termination Material: Copper(Cu),Tin(Sn)

Fuse Element: Copper(Cu),Tin(Sn)
