

VESX10

The Cling-on Clamp

ATEX approved clamp for use in potentially explosive atmosphere zones.

The VESX10 'Cling-On' Clamp is a heavy-duty earthing clamp used for bonding of drums, kegs, tanks, IBC and vehicles.

Cen-Stat™ cable is standard on all Cenlectrex products. Multi-stranded steel conductors for superior mechanical strength combined with Hytel anti-static coating for optimum chemical and abrasion resistance. With a 1:10 extension ratio **Cen-Stat** cable is proven to hold its shape after 20,000 continuous extensions.

RS Code 233-339

⊕ II 1 GD T6

Clamp and Cable Specification

Passivated Carbon Steel

Powerful clamping action

Twin Tungsten Carbide Contacts

Length 210mm, Width 35mm

Jaw Opening 40mm

5m Spiral Cable (4mm sq. conductors)

10mm ring terminal fitted to free end
