<b>Acknowledgements</b>	<b>9</b>
<b>Preface</b>	<b>10</b>
<b>Introduction</b>	<b>11</b>
<b>Chapter 1 Locations containing a bath or shower</b>	<b>13</b>
1.1 Introduction	13
1.2 Scope	14
1.3 The risks	14
1.4 Zones	15
1.5 Protection against electric shock	18
1.6 Wiring systems	20
1.7 Switchgear and controlgear	20
1.8 Current-using equipment	21
1.9 Other equipment, e.g. home laundry equipment	23
1.10 Electric floor heating systems	23
<b>Chapter 2 Swimming pools and other basins</b>	<b>25</b>
2.1 Introduction	25
2.2 Scope	25
2.3 The risks	25
2.4 Zones	26
2.5 Protection for safety	28
2.6 Luminaires	28
2.7 Socket-outlets	29
2.8 Current-using equipment of swimming pools	30
2.9 Fire alarms and public address systems	31
2.10 Fountains	31
<b>Chapter 3 Rooms and cabins containing sauna heaters</b>	<b>33</b>
3.1 Introduction	33
3.2 Scope	33
3.3 The risks	33
3.4 Shock protection	34
3.5 Wiring system	34
3.6 Heating elements	34

<b>Chapter 4</b>	<b>Construction and demolition site installations</b>	<b>35</b>
4.1	Introduction	35
4.2	Scope	35
4.3	The risks	36
4.4	Supplies	36
4.5	Protection against electric shock	36
4.6	Reduced low voltage	37
4.7	Wiring systems	38
4.8	Isolation and switching	39
4.9	Protection against the weather and dust	39
4.10	Inspection and testing	40
<b>Chapter 5</b>	<b>Agricultural and horticultural premises</b>	<b>41</b>
5.1	Introduction	41
5.2	Scope	41
5.3	The risks	42
5.4	Electricity supplies	42
5.5	Protection against electric shock	43
5.6	Earth fault loop impedances	45
5.7	Protection against fire	45
5.8	External influences	47
5.9	Wiring systems	48
5.10	Safety services	48
<b>Chapter 6</b>	<b>Conducting locations with restricted movement</b>	<b>49</b>
6.1	Introduction	49
6.2	Scope	49
6.3	The risks	49
6.4	Protection against electric shock	50
<b>Chapter 7</b>	<b>Electrical installations in caravan/camping parks, caravans and motor caravans</b>	<b>51</b>
7.1	Introduction	51
7.2	Scope of Sections 708 and 721	52
7.3	The risks	52
7.4	Legislation and standards	53
7.5	Electrical installations in caravan parks (708)	53
7.6	Caravans and motor caravans (721)	57
7.7	Tents	59
<b>Chapter 8</b>	<b>Marinas and similar locations</b>	<b>61</b>
8.1	Introduction	61
8.2	Scope	61
8.3	The risks	61
8.4	General requirements	62
8.5	Supplies	62

8.6	Protection against electric shock	63
8.7	Operational conditions and environmental factors	64
8.8	Wiring systems	64
8.9	Distribution boards, feeder pillars and socket-outlets	67
8.10	General notes	70

## **Chapter 9 Medical locations 73**

9.1	Introduction and scope	73
9.2	The risks	74
9.3	Definitions	75
9.4	Assessment of general characteristics	77
9.5	Type of system earthing	78
9.6	Supplies	78
9.7	Protection against electric shock	78
9.8	Requirements for fault protection (protection against indirect contact)	78
9.9	Transformers for IT systems	81
9.10	Functional extra-low voltage (FELV)	81
9.11	Protection by SELV or PELV	81
9.12	Supplementary equipotential bonding (additional protection)	82
9.13	Distribution boards	83
9.14	Explosion risk	83
9.15	Wiring systems in Group 2 medical locations	83
9.16	Lighting circuits	83
9.17	Socket-outlets	84
9.18	Safety services	84
9.19	Inspection and testing	87
9.20	Recommendations from the Department of Health	87

## **Chapter 10 Solar photovoltaic (PV) power supply systems 89**

10.1	Introduction	89
10.2	Scope	89
10.3	The Electricity Safety, Quality and Continuity Regulations 2002	89
10.4	Normative references	90
10.5	Definitions	90
10.6	Protection for safety	91
10.7	Isolation and switching	93
10.8	Selection and erection of equipment	93
10.9	Earthing arrangements and protective conductors	95

## **Chapter 11 Exhibitions, shows and stands 99**

11.1	Introduction	99
11.2	Scope	99
11.3	The risks	99
11.4	Protection against electric shock	100
11.5	Protection against thermal effects	101
11.6	Isolation	102

11.7	Measures of protection against overcurrent	102
11.8	Selection and erection of equipment	102
11.9	Generators	104
11.10	Safety services	105
11.11	Inspection and testing	105

## **Chapter 12 Floor and ceiling heating systems 107**

12.1	Introduction	107
12.2	Scope	108
12.3	The risks	108
12.4	Protection against electric shock	108
12.5	Protection against overheating	109
12.6	Standards	109
12.7	External influences	109
12.8	Identification	110
12.9	Heating-free areas	110
12.10	Locations containing a bath or shower and swimming pools and other basins	110
12.11	Information from the contractor for the user of the installation	111

## **Chapter 13 Gardens (other than horticultural installations) 113**

13.1	Introduction	113
13.2	The risks	113
13.3	Cables	113
13.4	Socket-outlets	114
13.5	Fixed equipment	114
13.6	Ponds	115
13.7	Supplies to outbuildings within the garden	115
13.8	Supplies to hot tubs	117

## **Chapter 14 Mobile or transportable units 119**

14.1	Introduction	119
14.2	Scope	119
14.3	The risks	120
14.4	Supplies	120
14.5	Protection against electric shock	125
14.6	Protective equipotential bonding	126
14.7	Wiring systems external to the mobile or transportable unit	126
14.8	Wiring systems inside the mobile or transportable unit	126
14.9	Proximity to non-electrical services	126
14.10	Identification and notices	126
14.11	Other equipment	127
14.12	Routine maintenance and testing	127

<b>Chapter 15</b>	<b>Small-scale embedded generators (SSEG)</b>	<b>129</b>
15.1	Introduction and the law	129
15.2	Engineering Recommendation G83	131
15.3	Installation and wiring	132
15.4	Means of isolation	132
15.5	Earthing	132
15.6	Labelling	133
15.7	Types of SSEG	134
<b>Chapter 16</b>	<b>Temporary electrical installations for structures, amusement devices and booths at fairgrounds, amusement parks and circuses</b>	<b>137</b>
16.1	Introduction	137
16.2	Scope	138
16.3	Electrical supplies	138
16.4	Protection against electric shock	139
16.5	Additional protection	139
16.6	Installation	140
16.7	Fire risk	142
16.8	Electrical equipment	143
16.9	Inspection and testing	143
<b>Chapter 17</b>	<b>Operating and maintenance gangways</b>	<b>145</b>
17.1	Introduction	145
17.2	Scope	145
17.3	Accessibility	145
<b>Index</b>		<b>149</b>
