

CASE STUDY: EASYLINE EDGE

Performance you can trust

LOCATION

Fulham Primary School

APPLICATION

Pupils and staff created a patchwork design that identified areas of play.

BACKGROUND

The school has a requirement for missing practical aids such as clear signs, seating and marking for a secure car park which was recently added away from the main playing area.

THE ROCOL SOLUTION

ROCOL has enjoyed a long association with the education sector and regularly works with schools to create fun and stimulating playground environments.

EASYLINE EDGE line marking paints offer a quick, easy way of producing vibrant markings indoors and out.

ACCEPTED BENEFITS/COST SAVING

The playground has been transformed into a bright, joyful and safe place for the pupils. This was achieved using bright paint colours that are highly durable that can easily be applied by staff or pupils.
