RAIN DEFLECTOR FITTING INSTRUCTIONS

Please read fitting instructions carefully before attempting to fit the Stormguard Rain Deflector.

1

Place rain deflector against the base of the door and mark the width of the door onto the aluminium.

2

Cut the rain deflector to the exact door width. Position the deflector at the bottom of the door on the outside, ensuring that the door is closed.

3

Mark off fixing holes with a pencil and using a bradawl start holes in the door base. Affix using the screws provided. Use Admastik™ sealant to seal the rain deflector to the door.

TOOLS REQUIRED

Pencil, hacksaw, small pozidrive screwdriver, bradawl and Admastik™
