

Getting a grip has never been so comfortable

Capilex® from Polyco is an extremely comfortable nylon glove with a patented, multi-layered nitrile foam coating that offers excellent wet and dry grip, and restricts oil penetration.

The breathable seamless knitted liner is very soft making the Capilex® extremely comfortable, enabling prolonged use without causing hand fatigue. The liner also has an elasticated wrist designed to give a snug and secure fit. In addition to the excellent grip and abrasion resistance, the multi-layered nitrile foam is flexible and soft enough to allow for fingertip sensitivity making it possible for use in tactile operations. The Capilex® is the comfortable choice of general handling glove when safe and secure handling is needed.

Case Quantity
12 pairs per polybag
48 pairs per case

Handling Applications

- Component Handling
- General Assembly
- Electronics
- Light Engineering
- Construction
- Automotive
