

## Datasheet

### PVC 5m Long transparent Flexible Ducting Reinforced, 80mm Bend Radius , Applications Food Suction, Liquid

RS Stock number [362-1953](#)

**Description:** A high tensile steel strip helix centrally positioned in a thick crystal clear, non-toxic, flexible PVC.

**Temperature Range:** -5°C up to +65°C

**Applications:** This hose is suitable for high vacuum applications in food and non- food industries. It is equally suited to dry or liquid transfer applications. Is suitable for beverages and alcohols that do not contain more than 28% alcohol. Vinegar, fruit juices, drinking water.

**Advantages:** High impact resistance, can be knocked back into shape if crushed. Good abrasion resistance. Excellent vacuum throughout size range at ambient temperature. Good chemical resistance. Good weathering resistance. Excellent transparency, easy to see product being conveyed, and locate blockages. Smooth internal bore and smooth outside cover.
