

Scraping tools & Accessories

Adjustable Scraper

RS Stock No. [339-4702](#)

Ideal for scraping, trimming and deburring all materials

The Adjustable Scraper consists of:

An Adjustable Scraper Handle SC1300 and a T80 Double Ended Scraper Blade

A knurled locking collar clamps the blade in the desired length position

Packed Weight and Dimensions:

Weight g	W mm	H mm	L mm
40	24	24	152

Instructions

Do not use heavy pressure when deburring as this will cause the blade to dig into the material and give an uneven finish

Use light and even pressure which will allow the blade and handle to work together to remove the burr and leave a smooth finish on the component

Blades should be handled carefully as they are sharp and can cut

Blades can break causing flying objects

Sharp edges and flying objects can cause injury

Users and bystanders should wear protective safety glasses

Do not pry or bend blades

Keep blades and sharp tools away from children

Do not regrind blades as this will weaken the blade and cause breakage and possible injury
