"The digital camera boom is about innovation for the masses - Lexar Platinum II cards help users leverage all the latest and greatest features!"

— Chris Chute, IDC

Multimedia Storage and Versatility in a Small Format

Lexar offers a comprehensive line of award-winning memory cards in various speeds, formats, and capacities, which include innovative features and valuable free software. With so many options, it's easy to find the perfect Lexar memory card to fit your needs and lifestyle.

Lexar Platinum II Memory Stick PRO Duo™ captures photo, video, and multimedia files in user-friendly Memory Stick format. It works with a vast range of applications, including Sony® MP3 players, video cameras, televisions, and computers with a Memory Stick PRO Duo slot. It's also ideal for use with Sony Ericsson mobile devices. The Lexar Platinum II Memory Stick PRO Duo is available in 512MB, 1GB, 2GB, and 4GB capacities.

Unleash Your Creativity

Maximize Your Multimedia Experience. Available in capacities up to a whopping 4GB, the Lexar Platinum II Memory Stick PRO Duo delivers high-capacity performance, specifically suited for Sony devices. This means you can take more high-resolution photos and video, and store and transfer more music and other important data files. The Lexar Platinum II Memory Stick PRO Duo gives you the performance and storage capacity to leverage the power of a variety of high-speed Sony devices.

Versatility. If an abundance of storage wasn't enough, the Lexar Platinum II Memory Stick PRO Duo provides versatility for use with a wide range of Sony devices. Lexar Platinum II Memory Stick PRO Duo is ideal for use with Sony Ericsson mobile phones and PDAs, as well as other Sony products, including DSLR and point-and-shoot digital cameras, MP3 players, video cameras, televisions, and computers. And high-capacity options mean you can reliably store and transfer a large amount of high-resolution photo, video, and more!

Serious Storage. The Lexar Platinum II Memory Stick PRO Duo gives you the power to store and transfer a multitude of high-resolution photos and video, as well as other multimedia files. The Lexar Platinum II Memory Stick PRO Duo is offered in a wide range of capacities up to a whopping 4GB, to address your specific storage needs. It lets you reliably capture and store your vacation photos, favorite songs, video clips, and other files, making it the perfect solution to your multimedia storage needs.

Lexar Platinum II cards are sold in Europe as Lexar Premium cards.

DISCLAIMER:

Actual usable memory capacity may vary. 1MB equals 1 million bytes; 1GB equals 1 billion bytes.
