

Product Information

FOAMCLENÉ - Anti-Static Foam Cleanser

Product Code FCL 300

Packaging 300ml/300g aerosol

DESCRIPTION

An anti-static foaming cleanser for use on the external surfaces of equipment to remove ingrained grease, dust and dirt. Also neutralises static charges.

TECHNICAL INFORMATION

A bio-degradable, water-based blend of solvents and surfactants with anti-static properties. FOAMCLENÉ should not be sprayed onto keyboards or areas or equipment carrying electrical current - spray onto the wiping material.

WHERE TO USE

Plastic exteriors of VDU's, Computers, Printers, Photocopiers, Telexes and Fax Machines.

Keyboards of VDUs, Telexes and Typewriters.

Filing Cabinets.

White Boards.

Microfilm Equipment.

HOW TO USE

Shake well. Use with SAFEBUDS to clean keyboards and with SAFEWIPES, SAFECLOTHS or SAFETISS on crackle finish surfaces, plastic cases and paintwork.

SELLING POINTS

1. Can be used on a vast range of equipment.
2. Anti-Static properties neutralise and reduce build-up of dust attracted by static.
3. Extremely effective on lifting the dirt out of crackle finishes.
4. Does not smear.
5. Non-CFC and non-flammable.
6. Aluminium can is 100% re-cyclable.
