

DEMOSTBMPL3115A2 Quick Start Guide

1 Unpack the Kit

- Unpack the board. Verify package contents according to the kit website: freescale.com/sensortoolbox.
- Assemble the hardware by connecting the development board to the USB interface board. Both of these board types have a small arrow to indicate where to connect. See the image below. More information can be found at freescale.com/sensortoolbox.

2 Download Latest Software

- At freescale.com/sensortoolbox download the latest software version.
- All Sensor Toolbox kits use the same software and driver, so the install only needs to be done once. Follow the on-screen instructions to install the communication driver for the tool. Check back occasionally for software updates.

3 Turn It On

- Plug in the USB and turn the board on using the power switch.
- Run the Sensor Toolbox link on your desktop.
- Explore other sensor kits at freescale.com/sensortoolbox.
