## Datasheet

# Two Port HDMI Video Splitter

RS Stock number [706-7044](#)

### Description

The HDMI Amplifier Splitter is an HDMI splitter with 2 outputs. It distributes the input into the two identical outputs simultaneously.

Each amplifier splitter unit's output can achieve a long distance transmission of a HDMI signal of more than 15 metres. When two or more products are cascaded, they can create a larger distribution and longer length.

### Features

- Easy to Use: Install in seconds, no need of setting.
- Distribution: Two identical HDMI outputs.
- Cascaded: Large distribution achieved by cascading the HDMI Amplifier Splitter.
- Devices with DVI output are not supported due to the lack of signal control.
