

# Nitron® Lite

## No lightweight when it comes to abrasion resistance

**Nitron® Lite from Polyco is a light duty nitrile coated glove with cotton interlock liner, combining the comfort of natural cotton and the protection of nitrile.**

The cotton interlock liner makes it extremely comfortable, and the glove is anatomically shaped reducing hand fatigue and enabling extended wear. Offering excellent resistance to abrasion, the nitrile coating also has an excellent dry grip due to its non-slip textured finish, and is highly resistant to grease and oil. Available in yellow and blue, the Nitron® Lite is a good choice for light general handling duties.

Nitron Lite Yellow
