

## Design-Kit for Power Chokes National Semiconductor

### Characteristics :

- Order code: 744 724
- Assortment with SMD Power Chokes
- With National Semiconductor Reference number to simplify the assignment
- Large spectrum of types and values
- 6 different types, 35 values and 190 components clearly arranged in a sample case

### Applications :

- Suitable for switching power supplies for National Semiconductor
- Supply for software Webbench through appropriate equipment
