

Datasheet

RS Pro Disconnect Terminal Block, CKT series, Screw Termination

RS Stock No: **796-0974**

Product Details

RS Pro disconnect terminal block is a screw termination system, used for measuring control and regulatory circuits. It provides a clear functional advantage for devices having utility instruments and associated transformers. This block features specially designed socket headed screws, which act as test monitoring points in disconnecting and test terminal blocks.

Features and Benefits

- Used measuring control and regulatory circuits
- Provide a clear functional advantage for devices having utility instruments and associated transformers
- Specially designed socket headed screws act as test monitoring points in disconnecting and test terminal blocks

ENGLISH

Specifications:

Termination Method	Screw
Wire Size	4 mm ²
Standards Met	RoHS Compliant
