RS Pro Proximity Switch, Surface Mount, 500mA, 50V dc, 60 x 55 x 35mm

Product Details

Small Roller Shutter

This roller shutter proximity switch of the 4-wire type incorporates a N/O SPST circuit and a separate loop for maximum security. Primarily designed for roller shutter type doors where the actuating magnet is fixed to the door. The 1 m length of 4-core cable is protected by a tough Nylon outer sleeve.

Set includes magnet and proximity switch

Standards

BS 4737 Part 3

Specifications

Activation Type	Proximity Switch
Mounting Type	Surface Mount
Switch Configuration	Normally Open
Switching Current	500mA
Switching Voltage	50V dc
Operating Gap	35mm
Depth	35 mm
Height	60 mm
Operating Gap Maximum	35mm
Width	55mm
