4 Piece Pin Vice Set

Starrett®

RS Stock number [539-952](#)

Description:

Starrett pin vices are useful for securely holding small stock, taps, drills, reamers, scribes, wire, small files, and other tools. The jaws on all are hardened and with a few turns of the binding nut, a firm grip may be obtained. Handles and binding nuts are nickel-plated.

A hole extends through the full length of the handles so that wires of any length and any diameter up to the full size of the tool can be held.

The handles of these pin vices are reduced in size so that they can be rapidly rotated between thumb and finger when filing small work.

Features:

0 - 0.040" (0-1mm)	162A
0.030 - 0.062" (0.8-1.6mm)	162B
