nailers PROTECTIVE KNEEPADS

NAILERS KNEEPADS PROTECT

Nailers kneepads are approved and certified to EU standards on 14404 Level 1

- The knee is the largest joint in the body. It's hinge-like structure is subject to constant pounding, bending and twisting
- Countless tradesmen visit doctors with knee injuries resulting in lost worktime
- The use of kneepads helps reduce pain and discomfort resulting in greater productivity
- Tradesmen without kneepads suffer pain and need to slow down to prevent injury
- Nailers produce high performance kneepads for greater on-site durability
- Nailers kneepads are designed for safety and performance. Nailers ergonomic designs provide maximum comfort
- Nailers kneepads are ideal for building work, laying floor tiles, carpet, vinyl laminate
- Companies that provide protective equipment cut costs and keep employees safe
