

DATA SHEET

43-1001

Small Mercury Spill Kit

Pack Quantity	1
Pack Weight	1kg
Unit Size	300x150x450mm
Use To Absorb	N/A
Sump Capacity	N/A
Safe Working Load	N/A
Use To Filter	N/A

Technical Features

- Effectively identifies, adsorbs and converts the mercury into a amalgam paste
- For adsorption of 15gr of mercury / 100gr of carbon

43-1001 – Mercury Spill Kit – Small

Contents:

- (500g) Amalgamation Powder (520270)
- (2) Mercury Sponges
- (1) Waste Collection Bottle

Application:

- Designed to Handle all stages of Mercury spill clean up
- Does not alter Mercury's toxicity
- For use by trained personnel only
- Once only use

Features and benefits:

- Converts elemental mercury into an amalgam

Absorbency: N/A

Weight: 0.91Kg
