2370 LED Flashlight

INTRODUCING THE 2370 LED LIGHT
NIGHT VISION RED, BLUE AND BRIGHT WHITE LIGHT

Our most sophisticated aerospace grade aluminum torch, the new 2370 LED light has been designed as 3 lights in one.

A rotating magnetic dial switches between bright white light and night vision red or blue light, so the 2370 LED is the only light you will need, whether piloting an aircraft, or navigating a park trail at night. The anodized aluminum body is strong and light weight while the strengthened steel clip fastens securely to your pocket.

The new 2370 LED: It keeps you dialed in to the action.

2370 LED Flashlight
