

## New Petzl Work at Height Package - pre packed work at height equipment

As part of our aim to provide the best service possible to our customers for 2014 we are offering pre-packed selections of Petzl personal equipment for work at height.

These packages are intended to assist users by choosing items that are both technically compatible and provide smooth, reliable operation in use.

The standard work at height package includes all the personal issue equipment needed to prepare for work at height using simple fall arrest techniques.

Obviously each package cannot include anchor systems, as each work site will be different and pose different challenges, but they make a great starting point for those putting a system together.

### Package Includes:

- NEWTON FAST JAK
- OMNI Triact
- DOUBLE ABSORBICAY MGO
- ALVEO Best Yellow
- BUCKET Bag
