

# Sawing - Jigsaw Blades - XPC® Wood Cutting Blades - XPC Wood Cutting Blade Set x 10 blades

## DT2296 Features

- XPC high performance jigsaw blades are designed for optimum cutting control and accuracy with long cutting life
- New "Plunge Point"™ tip for easy plunge cutting into all wood and wood substitute materials
- Long life - Optimum tooth geometry, increased blade and tooth strength and premium steel body for longer blade cutting life
- Accuracy & Control - Thicker blade body, increased taper angle and optimised tooth geometry for greater accuracy and control of cut
- Breakout - Slim narrow angled tooth design for clean cutting with less material breakout
- Fast cutting - Larger deeper gullets between teeth for easier wood chip removal and faster cutting
- Bi-metal products for extra long life (up to 2 x life of standard HCS XPC blades)
