

solar security light

PRODUCT CODE: SS9840

The Eye is just 4cm thick and can be rotated 170 degrees horizontally and tilted more than 180 degrees vertically. The Eye can even be angled to provide corner lighting without the need for corner mounting. The Eye benefits from superior waterproofing both on the light unit and on our new remote digital motion sensor which also offers greater accuracy.

- ✦ Innovative new mount design provides greater freedom of positioning
- ✦ High quality 42 LED solar security light with the latest digital motion sensor
- ✦ Activation time can be set from between 3 seconds and 10 minutes.
- ✦ IP56 rated for superior water resistance.
- ✦ Designed to work in UK winter
