

## ALARM CONTACT

### Ground contact

Contact designed for swing doors and for all applications in which a fixed ground contact is required (up-and-over or sliding garage doors etc.).

Moulded, sealed and corrosion-resistant contact (may also be used with a radio system).

High power magnet makes this contact highly reliable.

Self-protected housing and cable	
Enclosure material:	High-resistance injected aluminium
Dimensions (mm):	L 89 x W 38 x thickness 46
