

LAN ProNavigator™

Part number: 1543 Technical

Description

Test data & telephone cable for proper pairing for EIA/TIA-568A & B, Token Ring, 10 Base T & common Cat5, Cat5e, Cat6 configurations. Also tests continuity of 50 & 75 ohm coaxial cables with BNC terminations.

Features

- One-button, simple testing (PASS/FAIL or fault find) to detect: good connections, opens, crossed wires & split pairs
- Traces wires with tone & remote lights
- Quick fault analysis
- Compact & lightweight
- Comfortable to hold
- Low battery test
- Auto-off to preserve battery
- Lanyard holes embedded in case to attach to wrist or belt

Advantages

- Combination UTP/STP & coaxial cable tester for patch cords or installed cable runs
- Simple PASS/FAIL test results in one second - quickly move on the next test site
- Test status lights at both ends (main unit & remote)
- Generates oscillating audio tone for use with tone probes to locate cables
- Includes 9V battery & belt clips
