

Polychem™

Chemical protection for as long as you need it

Polychem™ from Polyco is a red PVC chemical resistant gauntlet with cotton interlock knitted liner.

This PVC gauntlet performs well to protect against a variety of chemicals including concentrated acids, alkalis, oils and greases. It attains maximum EN388 score for abrasion resistance and offers good tear resistance, helping to enhance the glove's mechanical protection and durability. It is also pressure tested for ultimate reassurance of gauntlet integrity. The cotton interlock liner provides exceptional comfort keeping the hands cool and comfortable, and its anatomical shape and flexibility minimise hand fatigue. The Polychem™ has been Actifresh® treated allowing it to stay fresher for longer and is available in four different lengths protecting to the top of the arm.

Typically Used for

- Chemical Handling
- Petro-Chemical Operations
- Plating
- Metal Treatment
- Oil Refining
