

Type 6213 can be combined with...

Type 2508

Cable plug

Type 1078

Timer unit

Type 8600

Dosing control

- Forced coupled diaphragm system
- Compact body from brass or stainless steel
- Push-over coil
- Anti-waterhammer, low noise
- Diaphragm materials NBR, EPDM, FPM

The Type 6213 is a 2/2-way normally closed solenoid valve with a forced coupled diaphragm system. It switches from 0 bar and can be used universally for fluids. For complete opening, a differential pressure of at least 0.1 bar is necessary.

Circuit function A

Servo-assisted 2/2-way valve; normally closed, with 2-way pilot control

Technical data

Orifice	DN 10 - 40
Body material	Brass, stainless steel 1.4404
Inner part of valve	Brass body Stainless steel body
Seal material	NBR, FPM, EPDM
Media	NBR FPM EPDM
	Neutral fluids, water, hydraulic oil, oil without additives Per-solutions, hot oils with additives Oil and fat-free fluids
Ambient temperature	Max. +55 °C
Media temperature	NBR FPM EPDM
	-10 to +80°C 0 to +90°C -30 to +120°C
Voltage tolerance	±10%
Duty cycle	100% continuous rating
Electrical connection	Tag connector acc. to DIN EN 175301-803 Form A (previously DIN 43650) for cable plug type 2508 (see Accessories)
Protection class	IP 65 with cable plug
Installation	As required, preferably with actuator upright
Response times	0.1 to 4 seconds (depending on orifice and differential pressure)

Technical data

	G 2							

1) For DN 25 and DN 40 with 24 V/UC, a cable plug with an integrated high-power electronics is provided as part of the delivery.

Flow rate: Kv value water (m³/h)

Measured at +20°C, 1 bar pressure at valve inlet and free outlet

Pressure values (bar)

Gauge pressures with respect to the prevailing atmospheric pressure

Response times (ms)

Measured at valve outlet at 6 bar and +20°C

Opening pressure build-up 0 to 90%
Closing pressure decay 100 to 10%

Materials

Ordering chart for valves (other versions on request)

1) For DN 25 and DN 40 with 24 V/UC, a cable plug with an integrated high-power electronics is provided as part of the delivery.

Further versions on request

- Heavy duty versions with high power coil for fluids and gases (see separate datasheet 6213 HP)
- Voltage 110 V/50 Hz, others on request

Accessories

Cable plug Type 2508 acc. DIN EN 175301-803 Form A

The delivery of a cable plug includes the flat seal and the fixing screw (galvanised and chrome-plated). For other cable plug versions acc. to DIN EN 175301-803 Form A (previously DIN 43650), see datasheet Type 2508.
