HD 65 TV

The HD 65 TV is a pair of closed TV stereo headphones designed specifically for watching TV and movies. Not only are they comfortable and lightweight but they feature superb speech lucidity and a high-quality reproduction of TV sound, making them perfect for your long TV nights!

These headphones come with a connection cable of 5.2m that has an integrated volume control, for direct connection to your TV. Additionally, the volume control offers separate controls for the left and right channels and can thus be individually adapted to your hearing.

And due to their closed design, the HD 65 TV headphones not only attenuate ambient noise while you enjoy your TV program or movie but also prevent others from being disturbed by leaking sound.

- Close Dynamic TV Headphones
- Independent Volume Control with extension cable included
- Comfort for extended periods of wearing

HD 35 TV

High wearing comfort with a whopping extension connection cable - you get these and more in the HD 35 TV!

These TV headphones provide a balanced, clear reproduction of TV sound while the volume control on their 5.2m connection cable offers separate controls for the left and right channels.

Not to forget, they are also lightweight, hence ideal for those long nights indulging on your favourite movies or TV programs.

- Open Dynamic TV Headphones
- Independent Volume Control with extension cable included
- Comfort for extended periods of wearing
