

Researcher ICD 20x - 80x

Product Code - 5803000

The Researcher ICD - is a Stereo microscope with a magnification of up to 80x at a very competitive price.

The combination of 10x & 20x of high grade wide field eyepieces, and the 2x & 4x oculars make possible the range of 20x - 80x magnification with all the advantages of premium optical qualities.

The height adjustable trinocular head allows for observations of larger items such as large rocks or thick circuit boards with equal ease.

The extremely bright halogen illumination can be switched between top, bottom or combined illumination adding to the versatility of this fine instrument.

<u>Specification</u>	
Magnification	20x - 80x
Power of the instrument	
Eyepieces	10x, 20x
Magnification of eyepieces	
Objective	2x, 4x
Magnification of objective lenses	
Illumination HA	Yes
Halogen lamp	
Type of head B	Yes
Binocular	
Camera connection PC	Yes
PC Ocular compatible	
Dimmer	Yes
Electronic dimmer for the light source
