

# COMPOSIT 190 PSS

The new patented cases of COMPOSIT range are manufactured using a special compound construction technique which consists of a 12/10 mm thick aluminium cold bent sheet and vacuum formed ABS sides. These sides are coated with a "Soft Touch" matt rubber surface, derived from the automotive field, which is highly protective.

All the products of this range are characterized by a great resistance and lightweight.

**Features:**

- 2 hinges with 90° opening block system and incorporated feet
- "click and go" system to easily fix the tool pallets
- 4 rubber feet for maximum stability on horizontal surfaces
- 2 chromed steel locks
- Rubber coated ergonomic handle

**Model Description:**

2 tool pallets with 3 PSS tool holding forms - bottom tray with high stability divider modules - document wallet

**PSS Storage System:**

The patented PSS storage system permits to store the tools thanks to the pressure of a four rubber blades, highly elastic and very resistant to mechanical solicitations.
