

Products to BS EN 179

“These products should NEVER be used in areas open to the general public.”

Products tested (conforming to BS EN 179) are only intended for the use of personnel who are fully aware of the escape routes and have been trained to operate these devices.

The following range consists of a push pad vertical bolt, reversible push pad rim latch and push pad mortice nightlatch. Each product when operated withdraws either the bolts or the latch, releasing the door for immediate escape in the event of an emergency.
