RUGGED **WATER RESISTANT** **5V & 20V** **SOLAR PANEL** **SOLARGORILLA**

“EVEN THOUGH TEMPERATURES FELL WELL BEYOND NEGATIVE 20°C, THE TEAM ALWAYS HAD ENOUGH POWER TO RECHARGE MULTIPLE DSLR CAMERAS. WHILE TRAVELLING THROUGHOUT THE DAY, THE SOLARGORILLAS CHARGED THE POWERGORILLAS AND AT NIGHT THE POWERGORILLAS WERE USED TO CHARGE CAMERA BATTERIES.”

SEBASTIAN BUBMANN
ATARAXIA 2012

In the desert, on safari, up a mountain or simply on the move, the solargorilla portable solar charger is the perfect companion to the powergorilla and minigorilla. The solargorilla is ideal for anyone who finds themselves away from mains power for long periods or where there is not a reliable power source. Harnessing energy from under the sun, the solargorilla works via two technically advanced solar panels to ensure superb power and reliable performance, all housed in a tough outer casing.

The solargorilla is also a viable charging option for laptops under 40 watts and it can also charge your mobile phone, iPod, handheld games consoles and many more devices from the 5v USB output.
