

Datasheet

RS Pro Cable Trunking Double Socket

RS Stock No: **812-3287**

Product Details

RS Pro cable trunking double socket dips directly into the trunking base profile. The socket position is adjustable to allow for the passing of cables behind. It has adjustable rear component, which can slide forward or back as required to set the required depth. This socket uses a serration locking design that allows for a high degree of accuracy in both setting and adjustment. It meets BS 6701 and BSEN50085-2 standards.

Features and Benefits

- Adjustable socket boxes clip directly into the trunking base profile
- The socket position is adjustable to allow for the passing of cables behind
- Concave shape
- Fast and simple installation
