Weight (Kg): 0.47

These discs, branded as "TDK Life on Record" are capable of storing 25GB of data or 135 mins of HD video.

Key Features

- 25GB capacity
- 4x recording speed
- 25 pack, supplied on a spindle
- Supplied in standard Jewel cases

TDK Blu-ray discs, featuring DURABIS2™ technology, make recording HD video and backing up large data directories possible. Each single layer 25GB disc provides 5x the storage of a conventional DVD allowing for 2 hours of HD quality video while supporting a throughput of 72Mbps.

The exclusive DURABIS hard coating formulation protects the media surface against scratches and other contaminants while the advanced spin coat manufacturing process and ultra-precise recording materials create an extremely smooth and precise cover layer allowing for 10,000 re-writes without loss of quality.
