

iglidur® J – The Fast and Slow Motion Specialist

Low wear against different shaft materials

Low coefficients of friction running dry

Vibration dampening

Good chemical resistance

Best material to use with soft shaft materials

Low moisture absorption

Large kit contains:

Type	Part Number	Normal Bore (mm)	Bush OD (mm)	Flange OD (mm)	Flange Thickness (mm)	Overall Length (mm)	Qty
Sleeve	JSM-0608-06	6	8			6	12
